## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The examiner has reviewed the applicants arguments in the appeal brief and the Chang declaration with respect to the amount of silicone oil used in the instant invention as opposed to the amount used in the prior art. The examiner is convinced by these arguments and has withdrawn the rejection of the claimed based the prior art.
2. The examiner maintains that the applicants' interpretation of "consisting essentially of" is not convincing and maintains that the claims are open to the presence of additional monomers that would not affect the basic and novel characteristics of the claimed invention. However, overcoming this point is not necessary for patentability.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
